

PCI **QUALITY**

Vulnerability Assessment Service By PCI Quality

Strengthened By Quality

WHAT IS VULNERABILITY ASSESSMENT SERVICE?

Vulnerability Assessment is a proactive cybersecurity service designed to identify, evaluate, and prioritize security weaknesses across your IT environment before attackers can exploit them.

Through systematic scanning and analysis, PCI Quality helps organizations understand their current risk exposure and take preventive measures to strengthen their defenses.

WHO IS IT FOR?

This service is suitable for organizations that want to maintain strong security posture, meet compliance standards, and prevent potential breaches, such as:

- Enterprises with complex IT infrastructure
- Financial institutions and fintech companies
- Healthcare providers and government agencies
- Manufacturing, logistics, and e-commerce sectors
- Any business that prioritizes data protection and system reliability

HOW (VA) CAN HELP YOUR ORGANIZATION?

- Comprehensive Visibility
- Identify vulnerabilities across networks, systems, applications, and endpoints.
- Prioritized Risk Insights
- Understand which weaknesses pose the highest threat and require immediate attention.
- Regulatory Compliance
- Align with standards such as ISO 27001, PCI DSS, and NIST.
- Proactive Defense
- Address vulnerabilities before they become entry points for cyberattacks.
- Actionable Recommendations
- Receive clear, practical guidance to remediate and strengthen your systems.

STEP BY STEP PCI HELP YOU

- Scoping
- Define the target systems, networks, and objectives of the assessment.
- Scanning
- Use certified tools to detect known vulnerabilities and misconfigurations.
- Analysis
- Review and validate findings to eliminate false positives and assess potential impact.
- Reporting
- Deliver a structured report with risk ratings, evidence, and prioritized recommendations.
- Revalidation
- (Optional) Verify that identified vulnerabilities have been successfully remediated.

WHAT WE OFFER

- Comprehensive Scans
- Detect vulnerabilities across systems, networks, and applications.
- Prioritized Insights
- Focus on what matters most — high-impact risks first.
- Compliance Ready
- Ensure alignment with global cybersecurity standards.
- Actionable Reports
- Clear findings with step-by-step remediation guidance.
- Continuous Improvement
- Support your team to stay secure as technology evolves

ABOUT PCI

We are PCI Quality, is a trusted and reliable IT consulting company in building IT governance capabilities and information or cyber security and privacy in organizations by referring to international standards and nationally applicable laws and regulations.

PCI Quality was established on March 24, 2021, the name PCI is an acronym for Professional, Compliance, and Institute, which reflects the company's core values, such as: Providing services with the best quality and standards, helping clients comply with applicable regulations and standards, and becoming a pillar of education and consulting in the field of IT governance and information or cyber security and privacy. Quality, commitment and innovation in service are absolute measures to provide satisfaction to customers.
